How is WASHLEX different from others?

#1 Material

	Material	When you use detergent	When in the sunlight
	<p>Poly-Propylene Material (PP)</p> 	<p>Detergent does not break down the material</p> 	<p>Color is unaffected by sunlight and maintains original color</p> 
<p>Others</p>	<p>Butadiene and Styrene Material (ABS)</p> 	<p>Material is susceptible to damage when using detergent</p> 	<p>Due to the nature of ABS material, the color can turn yellow in the sunlight</p> 

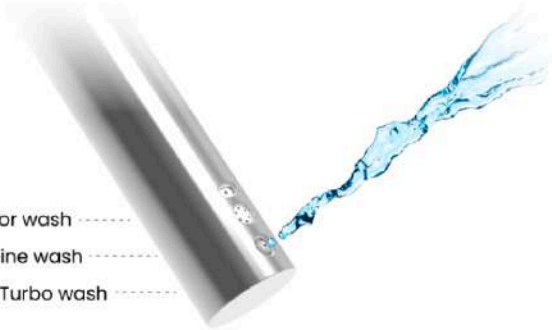

How is WASHLEX different from others?

#2 UV LED and LED

	Function
	 <p>UV LED</p> <p>Sterilization of bacteria, viruses and bacteria</p> 
<p>Others</p>	 <p>No UV LED</p>

SMART BIDETS

- ✓ **Sleek Design & All Shapes**
The design integrates seamlessly with existing toilets, adding modern sophistication to the bathroom. Shapes - U, O, V, S
- ✓ **Shower Function**
Adjustable water pressure for a refreshing cleanse.
- ✓ **Bidet Spray**
Provides a gentle and hygienic cleaning experience.
- ✓ **Child Mode**
A gentler spray and adjustable positioning for a comfortable cleansing experience for children.
- ✓ **Heated Seats**
The seat is heated, providing comfort especially during colder months.
- ✓ **Temperature Control**
Intuitive controls to adjust water temperature for a personalized experience.
- ✓ **Adjustable Water Pressure & Modes**
Users can personalize their cleansing experience with adjustable water pressure and spray modes.
- ✓ **Air Dryer**
Includes a gentle drying function with adjustable air temperature and drying time.
- ✓ **Eco Mode**
Optimizes water consumption while maintaining cleaning performance.
- ✓ **IPX5 Waterproof**
Protects the system from water and moisture penetrating from all directions

SANICARE+(NOZZLE)

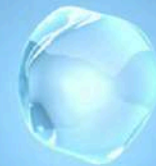

WASHLEX provides a more effective and sustainable cleaning and disinfection solution using electrolyzed water.

SANICARE+(BOWL)

E-water+ is a natural sanitizer that is harmless to the human body and effectively removes bacteria to maintain a clean environment.

SUPER WATER-SAVING

WASHLEX reduces water use by 33.3% or more on average over a standard. It's improved to consume as little as 0.79 gals. per flush.
